

There's a reason why they call it the "World Wide" Web...

Publishing a global web site involves more than simply posting content and taking orders. Your site must work just as well in foreign countries as it does in your own. To achieve this, it's not enough just to speak the language. You also have to be familiar with the social and business cultures of your overseas markets. If you aren't, you risk being ignored; or worse, you may unintentionally offend millions of potential clients.

Advanced Language Translation Inc. provides comprehensive translation and localization services managed by language professionals, who take care of the details so you don't have to. ALT's services can be customized to fit your needs, ranging from a complete localization and on-demand updating of your site, to inexpensive introductory packages for small businesses. Whatever your need may be, ALT can help. Quickly. Efficiently.

*It's time to get the jump on the competition.
It's time to make your website "World Wide."*

ALT will analyze your current website and offer a free quote tailored to your needs and specifications. Utilizing the latest translation memory technology, we can also offer translation of future updates and additions at reduced cost. Additionally, we offer **Multilingual Microsite™** packages that, for a bargain price, translate a 750 word summary of the your web site and services. Your Microsite is then marketed through foreign search engines. ALT has the knowledge and expertise needed to get your company's message out to the world.

"Because a smaller world means a larger audience."
